青蛙公园

Frog Park

澳大利亚 昆士兰州 阳光海岸
Sunshine Coast, QLD, Australia

Stockland

青蛙公园的设计灵感来自于濒危Wallum Sedge蛙类栖息地及其生理特征,设计包含了一系列富有趣味的游乐元素,以实现寓教于乐的功能。

极光巴林加青蛙公园的主题为保护Wallum Sedge蛙类以及展现该濒危物种栖息地环境的特色景观和植物特征。公园毗邻环境保护区和蛙类自然强化栖息地,其设计的一大基本目标为整合环境因素和青蛙主题教育元素,并设有特制游乐元素和公园娱乐设施。游乐场展示了各种青蛙和青蛙栖息地主题的游乐设施和构筑物;设计包含大型定制橡胶青蛙与“蛙腿”滑梯、睡莲摇摇秋千,十分适合幼儿玩乐;而定制草叶状跑酷攀爬障碍设施则是对更大一些的儿童和青少年的挑战。

Inspired by the habitat and physical characteristics of the threatened Wallum Sedge Frog, Frog Park will educate children through a series of fun play elements.

Frog Park at Baringa, Aura, celebrates the Wallum Sedge Frog and the particular landscape and plant characteristics found in the habitat environments of this threatened species. Adjacent to the environmental protection zone and natural and enhanced frog habitat areas, a fundamental objective of the park design was to integrate environmental and frog educational elements with bespoke play elements and parkland recreational amenities. The playground showcases a variety of frog and frog habitat themed play equipment and structures; a large custom designed rubber frog with “frog legs” slides, a water lily rocker and swing, which are great for toddlers and young children, whilst a custom grass blade parkour climbing obstacle system challenges older children and young teens.
