

布卡克海滩改造 Bulcock Beach Redevelopment

澳大利亚 昆士兰州 阳光海岸
阳光海岸地区政府
Sunshine Coast, QLD, Australia
Sunshine Coast Regional Council

重建工作提升了通往海滩的体验,也增加了公共休闲场地,使这一广受欢迎的旅游胜地再次复兴。

普利斯设计集团领导了咨询团队,为布卡克海滩大道改造项目提供了总体规划评估、设计扩初、相关利益者咨询服务,并提交了投标文件。

布卡克海滩拥有优越的环境、休闲娱乐和景观优势。项目所面对的挑战为在有限的建造预算范围内进行基础设施改造和环境改善。普利斯设计集团在整个项目的设计和施工阶段,协调和管理一个综合的顾问团队,包括结构工程师、工料测量师、岩土工程师、土壤科学家、建筑师、雕塑艺术家、解译师、通道、液压和电气顾问。设计、家具、细节和材料的选择都是对基地和浮石通道海洋位置的响应,对社区具有持久的价值。

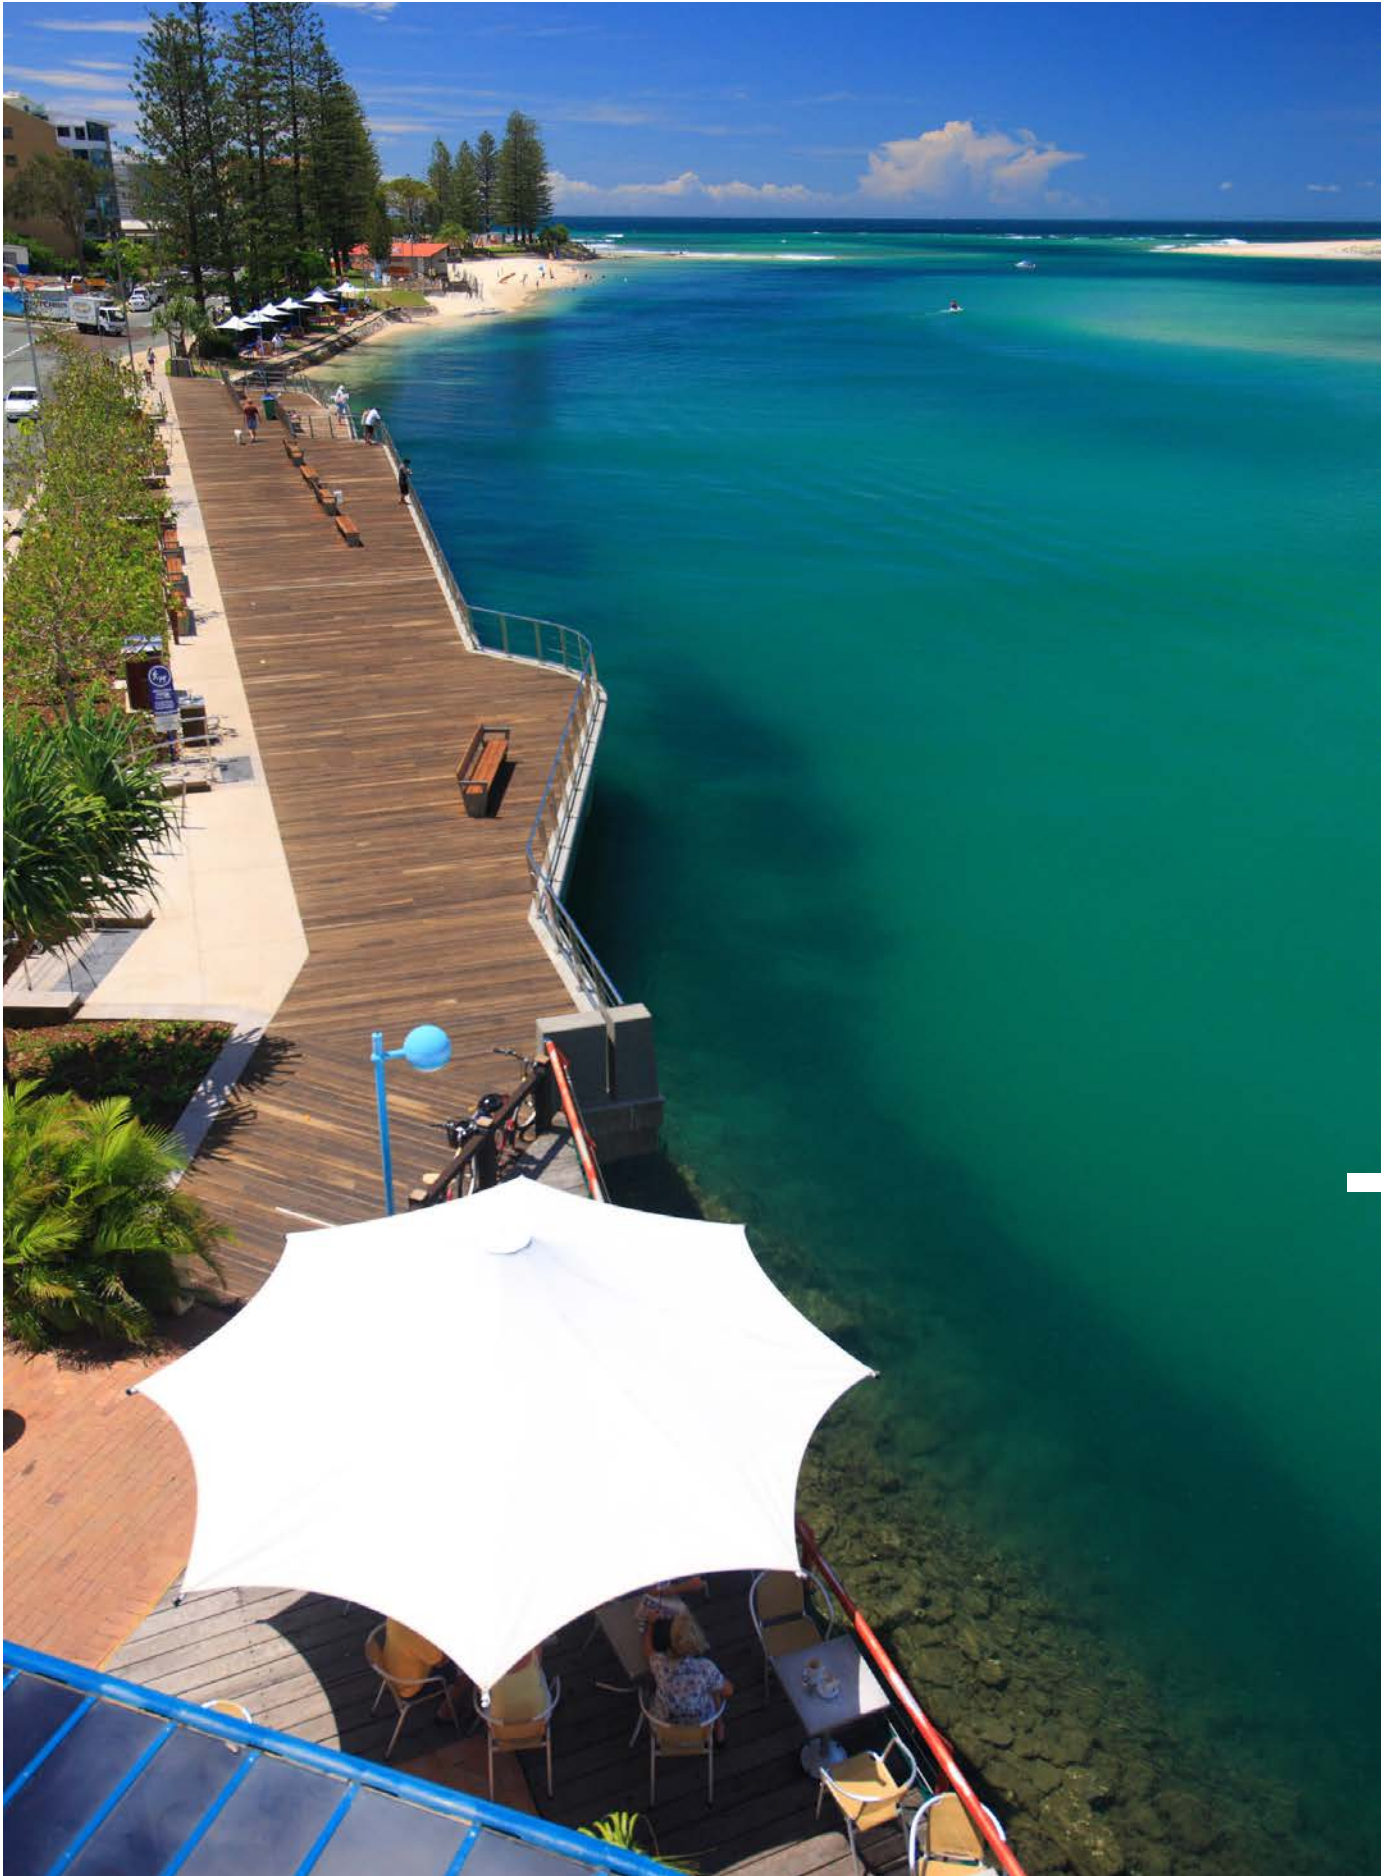

This redevelopment has revitalised a popular destination, providing improved beach access and public recreational opportunities.

Place Design Group was commissioned as lead consultant to undertake master plan review, design development, stakeholder consultation and prepare detailed tender documentation for the project.

The Bulcock Beach foreshore is a unique site with significant environmental, recreational and scenic values. The project involved challenges associated with infrastructure renewal and upgrade in a sensitive location, within a limited construction budget. Place Design Group coordinated and managed a comprehensive team of sub-consultants including structural engineer, quantity surveyor, geotechnical engineers, soil scientist, architect, sculptural artist, interpretive, access, hydraulic and electrical consultants through the design and construction phases of the project. The design, furnishings, detailing and materials selection is both responsive to the site and its Pumicestone Passage marine location and will have enduring value to the community.
