CRCC | Vanke Real Estate

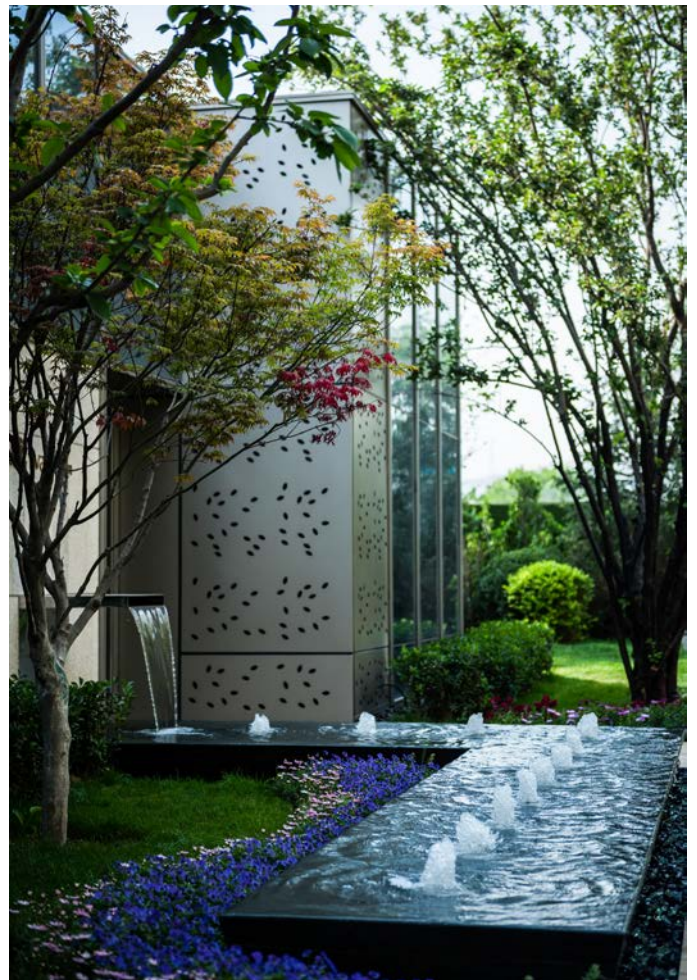

普利斯设计集团尝试使用了大量镜面材料以映射空间,在巧妙化解小空间各种矛盾的同时,也打造出了一座剔透玲珑的“水晶植物园”。

翡翠长安示范区项目用地面积小,呈沿街狭长带状。有限的空间内满足了诸多功能需求:项目地的沿街立面展示开阔、行人游览体验丰富;同时,还设计了贵宾停车位,并为独立的花园样板房保留了足够空间。

Developing a theme of “Crystal” we used water features and reflective metals to reflect light and visually enhance the feeling within the space.

The overall Display site occupied a corner position and was of limited size and linear in layout. Place Design Group worked with the clients to help realise their specific needs such as creation of a journey that has multiple experiences and able to display the building facade clearly to the street. As well we were able to incorporate VIP parking on site and an unattached Sales Display Unit.
