我们对于优异材质和完工方式的关注和精挑细选为泳池和建筑创造了奢华、优美的外观。

Riverlight属于Settler's Cove这个环境保护总体规划开发中住宅公寓部分的二期项目。客户希望景观设计与建筑结构紧密结合；因此，普利斯设计集团在户外休闲区域中创造一个奢华的度假风格的环境。

青翠的亚热带植物使这个度假景观与周围的自然沿海林地环境相融合。凉亭、治疗性水疗、功能齐全的健身房、瑜伽地板、烧烤区和酒吧进一步完善了公共设施。

Ability and care was taken in selecting exceptional materials and finishes to provide a luxurious and beautiful setting for the pools and architecture.

Riverlight is the second stage in the apartment precinct of the environmentally sensitive master planned Settler's Cove development. Commissioned to create a cohesive design which complemented the architectural structures, Place Design Group created a luxurious resort style setting amongst the outdoor recreation areas.

Utilising verdant sub-tropical vegetation, our team was able to integrate the resort with the surrounding natural coastal woodland environment. The project also incorporates shelters, spas, gym, yoga deck, BBQ and bar which complete the communal facilities.
