项目的开发在一定程度上推动了南港中心区域的复兴。从住宅屋顶花园能看到南港, 以及博德港湾和更远的大海。

南港中心由三个大型住宅楼构成, 景观设计上体现集中的原则。一个正式的和相对休闲的户外泳池与BBQ场地一起为业主创造出户外活动空间。较小的座椅空间则给出了更多的私密性。景观设计不仅提供了高品质的功能性休闲场地, 更为与之相连的住宅楼内的业主带来了美好的视觉体验。

Southport Central has been part of the catalyst for the revitalisation of the Southport Centre area. The residents roof top gardens look out to the broadwater and ocean beyond.

With three large residential towers the design and utilisation of the landscape needed to be relatively intense. Place Design Group was commissioned to create an external focus for residents. Two outdoor pools, one formal and one more recreational in layout; BBQ courtyards, combine with more intimate spaces achieved through smaller seating courts.
