现代简约的设计手法打造出全新的景观空间体验。

圆形的“天空之眼”结合现代水景和特色景观树平衡了尺度较大的正门构筑物，在项目入口处营造出仪式感。入口半通透的屏风和面向建筑物的实墙所形成的反差组合制造了通往售楼路上的悬念。现代风格的建筑与水景交相辉映。水上蜻蜓雕塑的动感与水面的平静产生一种动静相宜的效果。

Using a modern and minimalist approach to the design of the landscape has created a fresh and calm setting.

The deliberately large scale of the entry structure is softened by the circular “sky hole” which combines with a modern water feature and feature plantings to create an almost ritual feeling at entry. The combination of semi-transparent screens at the entry with more solid walls towards the building helps to create suspense when approaching the sales center. The main water feature is combined with a brilliantly reflective sculpture of a dragonfly that creates a feeling of tension between sculpture and the surface of the water.
