宜宾市住房和城乡建设局

Yibin, Sichuan, China

Residential and Town Construction Bureau of  
Yibin City

普利斯设计集团应邀参加了四川省宜宾市大三江口城市核心滨江景观设计竞标,并最终赢得了冠军。

该项目旨在为这个万里长江第一城——宜宾市的三江交汇口的市中心区提供景观改造,为城市的振兴发展注入活力。整个项目占地140公顷,河岸线绵延14公里。设计的关键是在最具价值潜力的沿河一线找到商业用地和居住用地的平衡点,同时又要充分结合城市公共绿化空间,塑造宜宾城市形象,提升市民生活质量,增加城市文化内涵。

Place Design Group, the eventual winner was invited to participate on a master planning competition on the River Front Landscape Design for Dasanjiangkou City Centre in the city of Yibin in Sichuan.

The competition focused on reinvigorating the 14 km of inner city river edges at the merge of 3 rivers and balance between commercial and residential uses along the River's edge. Traditionally these areas have enormous value and present a solution where integration of open space can help define a city's identity, lifestyle and cultural value.
