现代简约美学注重简练的细节，促进艺术表达和沉思，是该项目景观设计的内在价值。

滨江壹号示范区以“一方池、一方境”为景观意境，以此来整合内外部空间，在相对较短的距离中打造出良好的过渡体验。步行园路和景墙或阻隔或引导访客的视线，增强了空间体验；而景墙和雕塑上艺术元素的运用则为访客带来了惊喜和愉悦。

A simple modern aesthetic that elevates clean details to the fore and promotes artistic expression and contemplation are the inherent values of this landscape design.

The One Central Display Area uses a philosophy of "one pool, one landscape" as a way to integrate internal and external spaces and create a transition experience for visitors over a relatively short distance. This is achieved by pathways and walls that screen and direct views to enhance space and the incorporation of art elements in wall details and sculpture provide visitors with moments of surprise and delight.
